

# CREATE A PERSONAL WEB PAGE USING GITHUB

A TUTORIAL

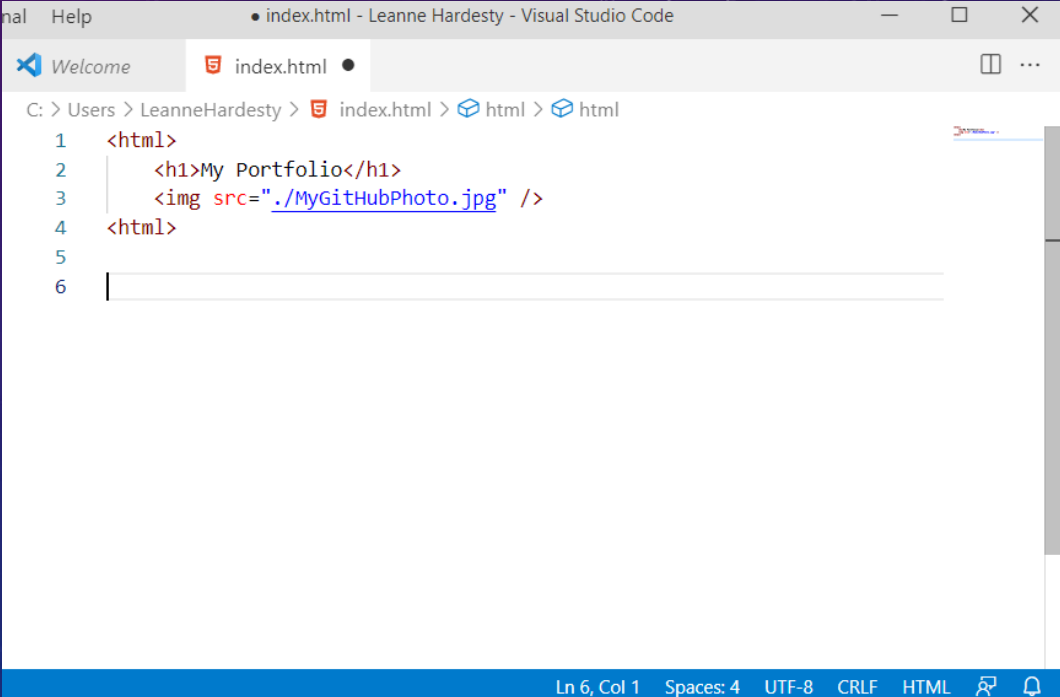

# SUMMARY OF STEPS TO CREATE YOUR PERSONAL WEB PAGE ...USING GITHUB

# PRE-REQUISITE STEPS: CREATE TWO DOCUMENTS

1. Find a photo of yourself for your GitHub profile, name it MyGitHubPhoto.jpg, and place it on your Desktop
2. Using a text editor such as NotePad or VS Code, enter the following text into a new file. Save the file on your Desktop and name it index.html

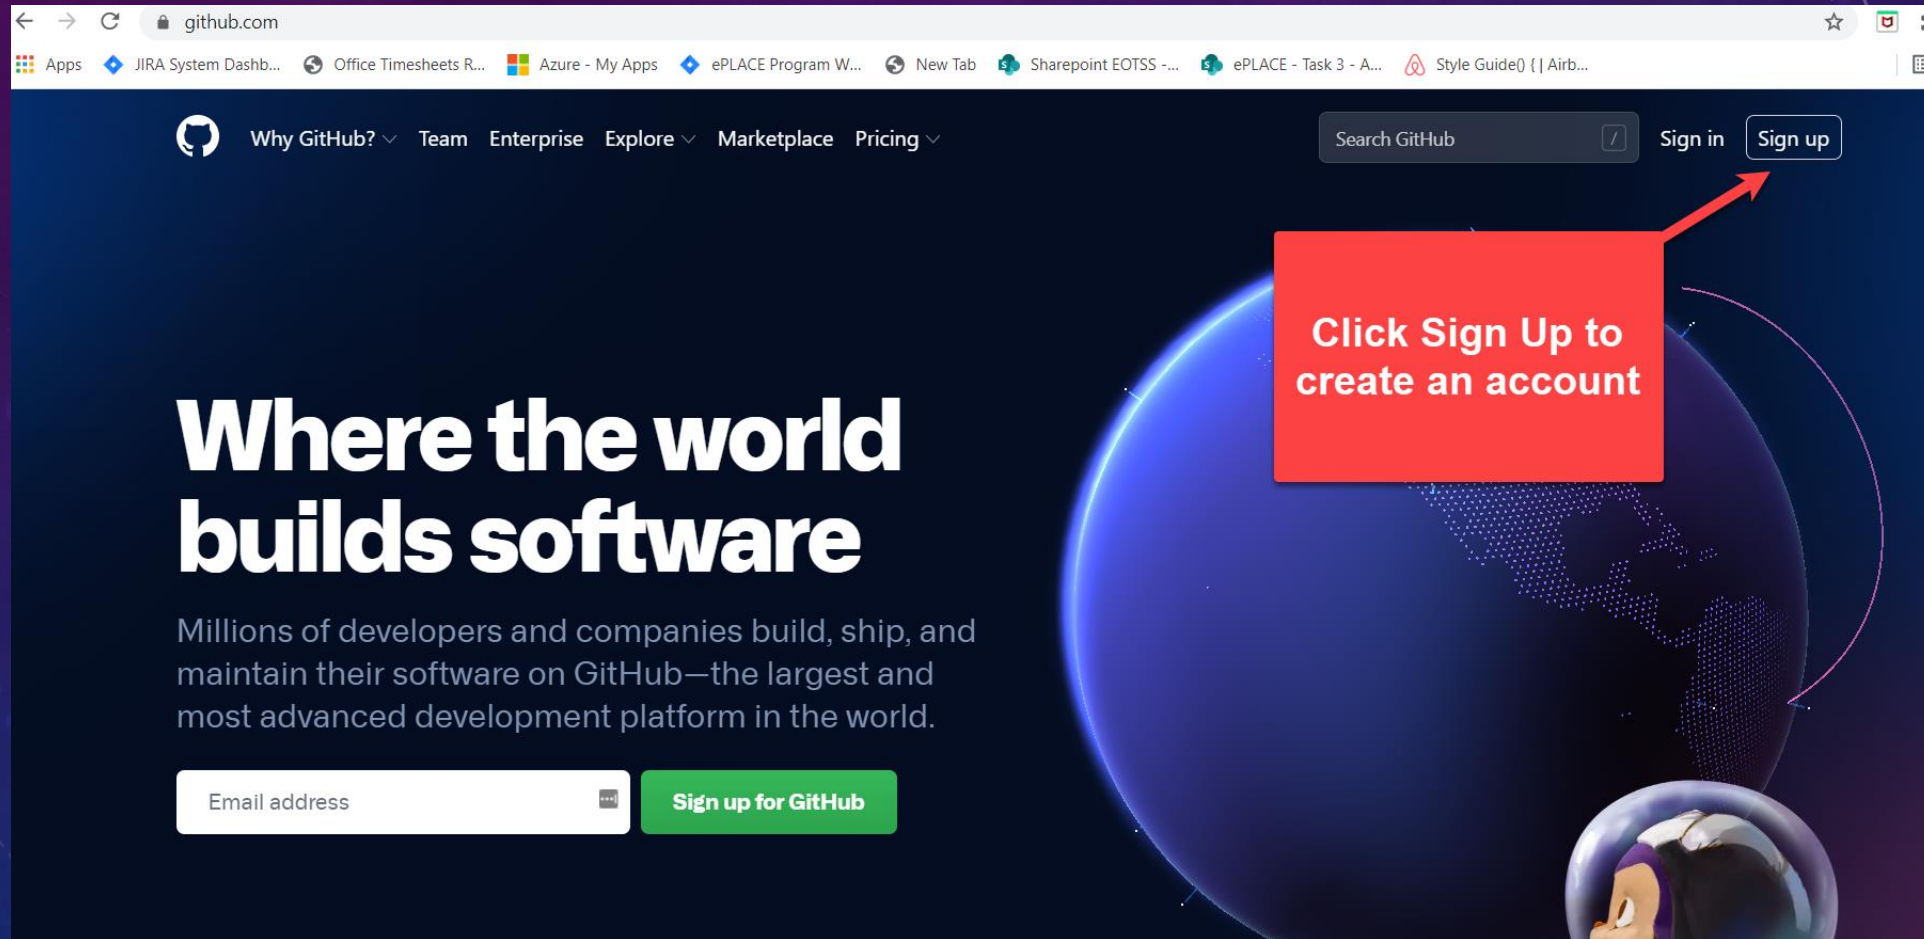

```
<html>  
  
  <h1>My Portfolio</h1>  
  
    
  
</html>
```

A screenshot of the Visual Studio Code editor window. The title bar shows 'index.html - Leanne Hardesty - Visual Studio Code'. The editor has a tab for 'index.html'. The file path in the breadcrumb is 'C: > Users > LeanneHardesty > index.html > html > html'. The code in the editor is:

```
1 <html>  
2   <h1>My Portfolio</h1>  
3     
4 </html>  
5  
6
```

The status bar at the bottom indicates 'Ln 6, Col 1', 'Spaces: 4', 'UTF-8', 'CRLF', and 'HTML'.

# CREATE YOUR REPOSITORY

Once you have created your account and are logged into GitHub, create a new GitHub repository.

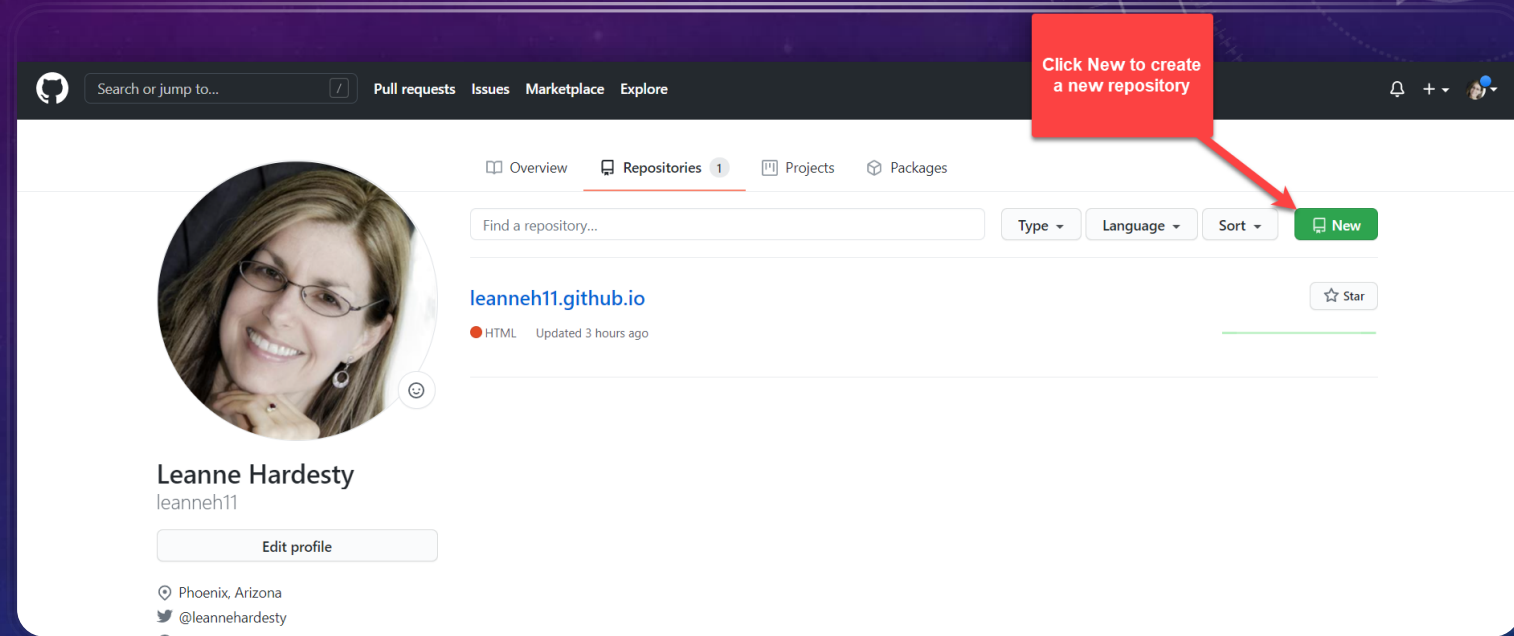

In the upper right of the page, click on your photo or initials, select Your repositories.

# CREATE YOUR REPOSITORY

Click the New button to create a repository with your name.

This will become the shell for your GitHub portfolio website.

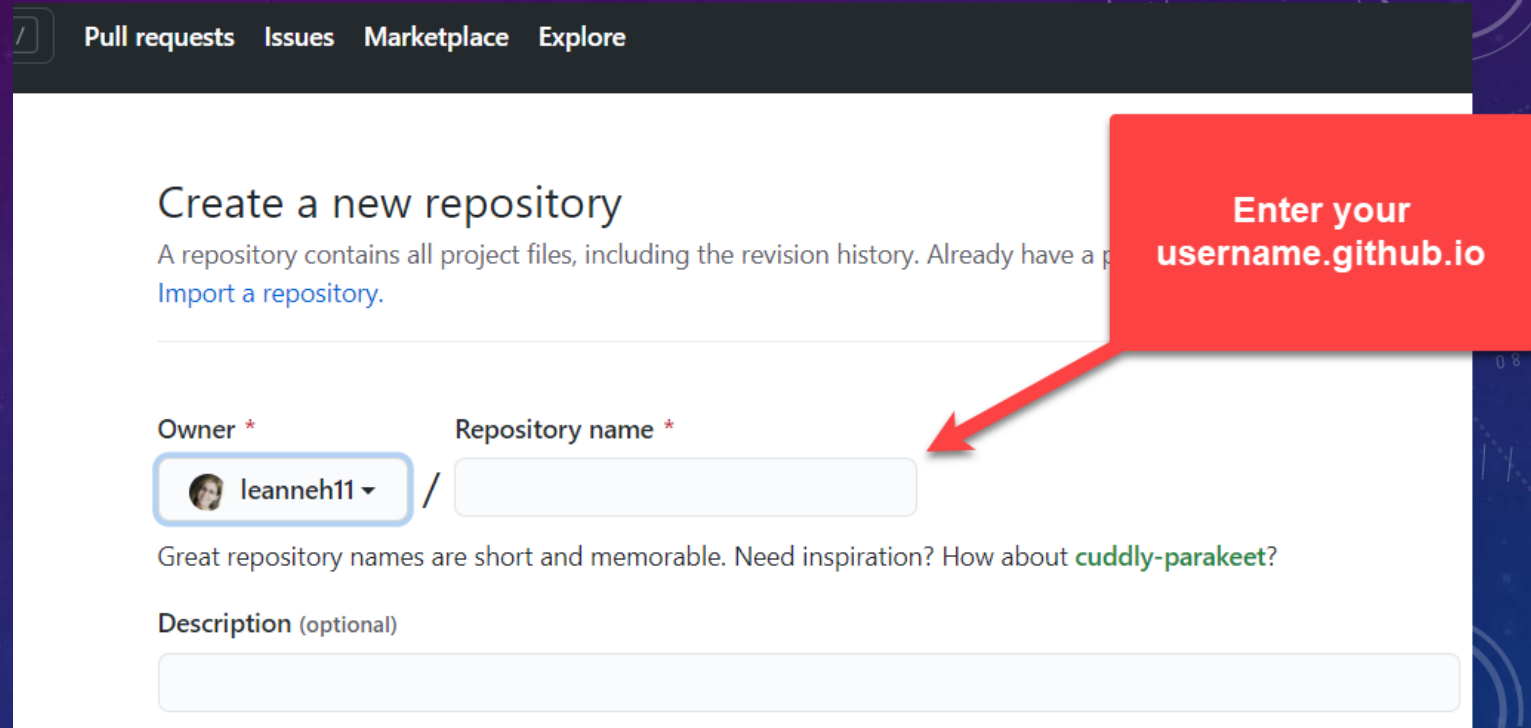

# CREATE YOUR REPOSITORY

In the Repository name textbox, enter the name followed by .github.io

For example: smith.github.io

Adding github.io will allow you to access this repository via a browser.

## Create a new repository

A repository contains all project files, including the revision history. Already have a project? [Import a repository.](#)

Owner \* Repository name \*

 leanneh11 /

Great repository names are short and memorable. Need inspiration? How about [cuddly-parakeet?](#)

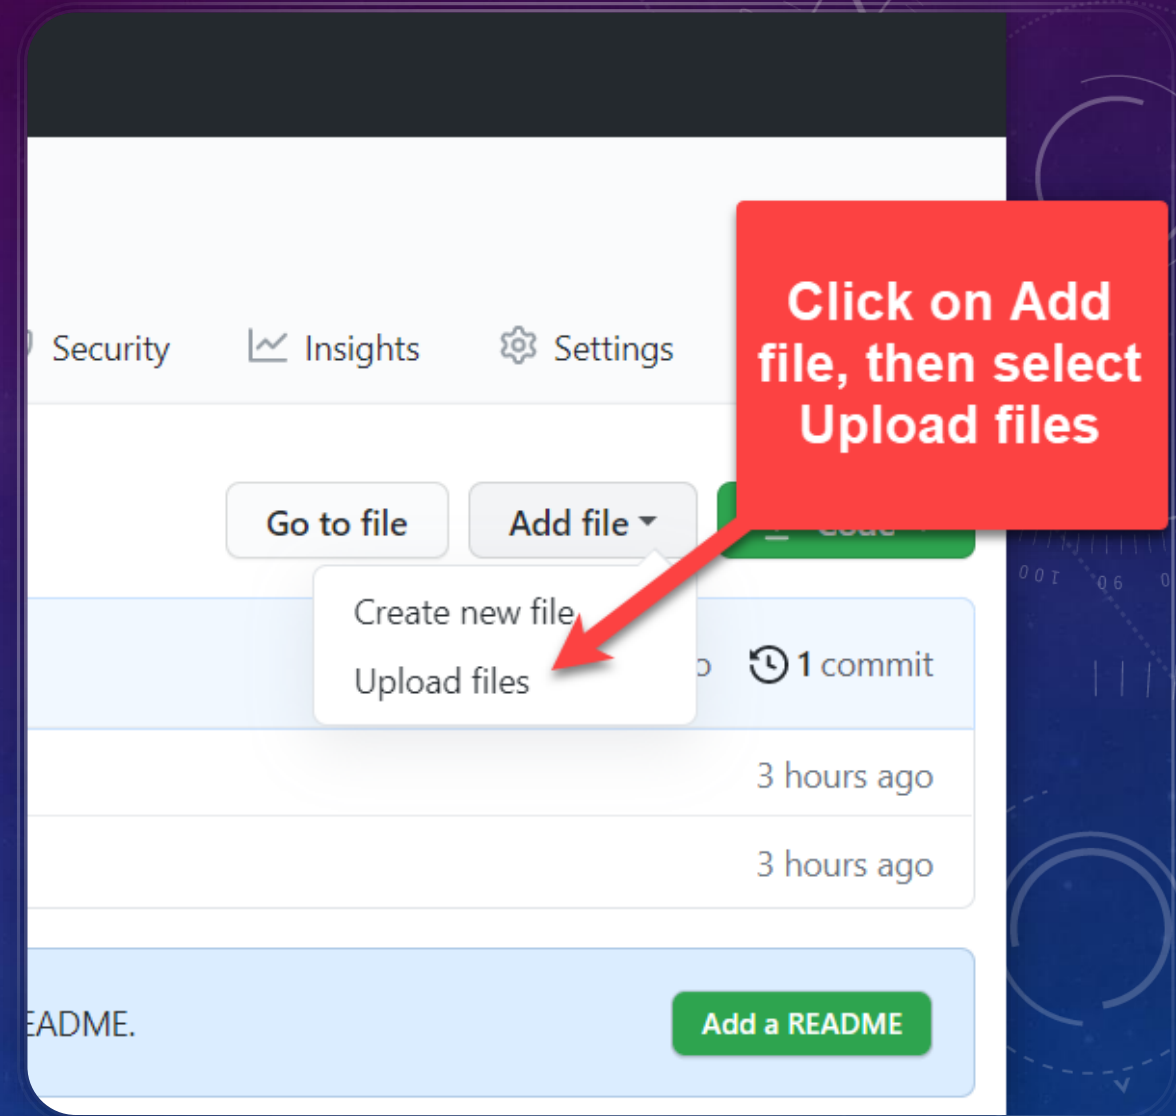

Description (optional)

# COPY FILES TO REPOSITORY

Copy the two files that you created in Step 1 into the repository.

1. Click Add file
2. Select Upload files
3. Navigate to your Desktop and upload:
  - a. MyGitHubPhoto.jpg
  - b. index.html
4. Scroll down and click "Commit" your changes.

# VIEW YOUR GITHUB WEB PAGE

View your github web page:

Enter your repository name into the browser's  
URL.

**Congratulations!**
